The Kadoka Area School District #35-2

Policy Handbook

Chapter 1 INTRODUCTION

In addition to the State of South Dakota, statutory provisions allowing by-laws are part of the Kadoka Area School District policy.

No policy in these by-laws shall be operative if it is found to be in conflict with any laws of the State of South Dakota.

There is no such thing as maximum standards or policy, at its best, only the minimum needs to be a sufficient guide. The policies and regulations of the Board of Education of the Kadoka Area School District #35-2 need to be thoroughly understood so that the tenure of all school persons can be a happy and profitable one. This Board Policy was officially adopted July 10, 2007, and became effective immediately.

Continuation Policy: First Reading: December 12, 2011; Adoption January 11, 2012.

The School Board, representing the people of the District, is the legislative body which determines policy for the Kadoka Area School District 35-2. It is the intent of the board to develop policies and put them into writing so that they may serve as guidelines for the superintendent, all district employees, parents and student, in the day-to-day operation of the district. The School board may take action on matters based upon recommendations presented to the board from the superintendent or board committees. Final actions on proposals will be taken by the School board.

A policy or regulation may be withdrawn or repealed by school board action if the policy or regulation is no longer necessary due to change in statute, has become obsolete, or the materials is covered by another policy or regulation. If a policy contains provisions that are in conflict with another policy, the provisions in the policy most recently adopted or amended will govern. The school board shall pass a motion to adopt all policies of the previous board at the annual meeting. If no such action occurs at the annual meeting the existing policies of the Kadoka Area School District will continue without such motion.

The MISSION of the Kadoka Area School District is:

To prepare all students to reach their full potential in an ever changing world.

The VISION of the Kadoka Area School District is:

Chapter 3 THE BOARD OF EDUCATION

1. **LEGAL DESIGNATION:** The District is designated as the Kadoka Area School District #35-2, State of South Dakota.
2. **FUNCTIONS OF THE SCHOOL BOARD**
 - a. The chief function of the school board is to provide for the progress and welfare of the schools under its control, and to adopt the policies which govern its organization and operation.
 - b. The school board is responsible for formulating policies for the general management of the schools in the district. It delegates administrative authority to the superintendent but is responsible to the people for the results produced.
3. **RETENTION AND DELEGATION OF AUTHORITY:** The Board of Education retains full legislative and judicial authority over the school in accordance with the school laws and expressed will of the electorate, but delegates all executive, supervisor and instructional authority to its employees as herein after specified. Legislative service under the law implies the power and obligation to contract for service and materials, the power to inspect, the power to pass judgment upon employees and their work, and the power to veto acts of any or all employees when such are deemed contrary to the legal rights or obligations of the District, or inconsistent with established Board Policies.
4. **DELEGATION OF AUTHORITY:** In fulfilling its obligations, the Board acts similarly in its relationships to the schools as do Boards of Directors to successful business organizations, that is: through the powers of legislation, by the determination of policies and the evaluation of results. The direct administration of the school system is delegated to the Superintendent of Schools whom the Board appoints to act as an executive officer of the Board. The Superintendent is held individually and directly responsible to the Board for the execution of all its policies and its legislation and for other duties assigned to him by the Board. Individual members have status as Board Members ONLY when acting formally as members of the Board, while it is in executive session, or when specifically entrusted by the Board to carry out definite assignments.
5. **BUSINESS MUST BE TRANSACTED DURING REGULAR SESSION OF THE BOARD:** The Board of Education can transact business which is legally binding on the District only in regular session with a quorum present and its proceedings recorded in the minutes of the meeting.
6. **COMPLAINTS:** Patrons should be encouraged to discuss their problems with the teacher, Principal, Superintendent, and Kadoka Area Board of Education in that order.
7. **EQUAL OPPORTUNITY EMPLOYMENT:** The Board subscribes to the fullest extent to the principle of dignity of all people and of their labors and will take action to ensure that applicants are employed, assigned and promoted without regard to their age, race, creed, color, sex and marital status, political affiliation, or national origin. Every available opportunity will be taken in order to assure that each applicant for a position is selected on the basis of qualification, merit and ability.

8. **NONDISCRIMINATION:** The Board is committed to a policy of nondiscrimination in relation to race, sex, religion, national background, handicap and other human differences. Respect for the dignity and worth of each individual will be paramount in the establishment of all policies by the Board and in the administration of those policies. The constitutions of our nation and state, pertinent legislation enacted at those two levels of government, as well as court interpretations regarding citizens' rights, support this statement. (Title IX and Section 504 Coordinator shall be appointed annually.)
9. **DUTIES OF THE PRESIDENT:** It shall be the duty of the President to preside at all meetings of the Board of Education and to sign all vouchers and checks approved by the Board of Education. The president should discuss and vote on all matters coming before the board. A tie vote does not gain a majority and means that the motion is defeated.
10. **DUTIES OF THE VICE PRESIDENT:** The vice-president of the board will assume the duties and responsibilities of the president in their absence and perform such other duties as may be assigned by the school board.
11. **MEETINGS OF THE BOARD:** The day and time for regular board meetings is determined by the board at the annual meeting but may be changed if the need arises at the previous monthly meeting. All meetings of the school board shall be open to the public.
 - a. Any legal meeting may be recessed to a specific time and place. The items remaining on the agenda of the meeting recessed should be acted upon first at the recessed meeting. Other items of business are to be discussed and acted upon by a majority vote of the members.
 - b. Special meetings of the board may be called by the president or in his absence by the vice-president. No business shall be transacted at the special meeting except that specified in the call for the same unless a quorum of the board is present and agrees to the consideration of additional items.
 - c. In the event that a board member(s) must recuses themselves from voting due to conflict of interest, board action may be taken by the majority of the remaining members.
 - d. To expedite the Board's proceeding and provide a framework for the orderly conduct of business, non-action items on the agenda will be heard but no action will be taken at that particular meeting. The board will determine the course of action in regards to such items for a future meeting.
12. **MINUTES OF BOARD MEETINGS:** A complete and accurate set of minutes of each Board meeting shall be kept to comply with all legal requirements. Minutes shall be kept in an official record book specified for that purpose, and shall be kept on file as the official record of the District and shall be open to public inspection. Minutes shall be published as required by law.
13. **CONDUCT OF BUSINESS OF THE SCHOOL BOARD:**

For the purposes of this policy, the term “resident district” means the district in which a student has legal residence as determined by SDCL. The term “non-resident district” means any district in which a non-resident student seeks to enroll. The term “assigned school” means an attendance center within a resident student’s district to which the student has been assigned.

The board will accept all students from other districts wishing to enroll, provided the non-resident district’s facilities can accommodate the students without adversely affecting the quality of the educational program. This determination will be based upon criteria adopted by the board, see Section C below, and is subject to the following conditions.

A. GENERAL PRINCIPLES

1. A student who is a legal resident of another South Dakota district seeking to transfer to Kadoka Area School District must make application to both the resident and non-resident districts. The application must be on forms provided by the Department of Education (available through the business office or on line). The application must be made by an unemancipated student’s parent or guardian or by the emancipated student. (The parent with the authority to request enrollment is the resident custodial parent.)
2. The application will be approved or disapproved if the transfer does not result in an inability to provide a quality educational program by the Kadoka Area School Board, and the applicant and resident district must be notified of the decision within five days of the decision. Applications will be reviewed in the order received.
 - a. In-district transfer applications to move to a non-assigned school can be accepted and acted upon by the board at any time; however, decisions regarding transfers among attendance centers within a district will be based upon policies consistent with resident/non-resident transfers.
 - b. The application may be withdrawn by the applicant through notification to the affected school boards
 - c. Once approved by the non-resident district, the applicant’s intent to enroll obligates the student to attend school in the receiving non-resident district or non-assigned school for the next school year, unless the two boards agree in writing to allow a student to return to the original district or assigned school or if the parent, guardian or student changes residence to another district.
3. Once enrolled in a non-resident district or non-assigned school, the enrollment will continue unless a bona fide change of residence occurs or a subsequent transfer application is received.
4. A non-resident district will accept credits granted for any course successfully completed in another accredited district. The non-resident district may award a diploma to a non-resident only if the student satisfactorily meets the non-resident district’s graduation requirements.
5. Transportation of non-resident students to school is the responsibility of the applicant. Both the resident and non-resident district may provide transportation to non-resident students if approved.

B. CRITERIA FOR MAKING TRANSFER DETERMINATION

Requests for transfer will be considered on a case by case basis in accordance with SDCL.

The standards will be available to any individual so requesting. Discrimination based upon race, gender, religious affiliation or disability is prohibited.

Although standards can be established based on capacities of programs, classes, grade levels and buildings, the Kadoka Area School District has decided not to set any capacity restrictions/limitations but will review this issue annually.

1. The Department of Education and Cultural Affairs' has authority to promulgate rules setting forth procedural and administrative requirements of the open enrollment program. The school district will follow any and all such rules and procedures.
2. The board may deny applications for any of the following reasons:
 - a. The standards established in paragraph B-1 above are violated;
 - b. The applicant is under suspension or expulsion, pursuant to SDCL 13-32-43;
 - c. The applicant has been convicted of possession, use, or distribution of any controlled substance, including marijuana and is under suspension pursuant to SDCL 13-32-43;
 - d. The applicant has been convicted of a weapons charge relating to the schools and is under suspension pursuant to SDCL 13-32-43.
 - e. If misrepresentation of information by the applicant for transfer is determined to exist, before, or after the acceptance process of while the student is in attendance. If the student has previously been accepted, misrepresentation of information will result in revocation of the acceptance

C. ACCEPTING NON-RESIDENT STUDENTS IN NEED OF SPECIAL EDUCATION

A request to transfer a student in need of special education or special education and related services may be granted only if, after a review of all relevant student education records and direct communication with the student's parent or guardian and representatives of the resident district, the Kadoka Area School District special education administration determines that the District can provide an appropriate instructional program and facilities, including transportation, to meet the student's needs. If the request to transfer is granted, the Kadoka Area School District is responsible for the provision of a free appropriate public education for the student in need of special education or special education and related services. If the student requires transportation as a related service, the Kadoka Area School District shall provide or ensure the provision of transportation within the boundaries of the District.

A request to transfer a student in need of special education or special education and related services may be denied only if the Kadoka Area School District cannot provide an appropriate instructional program and facilities, including transportation, to meet the student's needs.

If the Kadoka Area School District confirms, based upon the records review and communications with the student's parent or guardian and representatives of the Kadoka Area School District, that it can provide an appropriate instructional program and facilities, including

transportation, if necessary , to meet the needs of the student, it may proceed with the open enrollment process.

If the Kadoka Area School District is not able to make confirmation of an appropriate instructional program and facilities to meet the needs of the student, the Kadoka Area School District shall initiate an individual education program team meeting consisting of representatives from both the resident and nonresident districts to determine whether the Kadoka Area School District can provide an appropriate instructional program, facilities, and transportation, if necessary. After the determination is made, the Kadoka Area School District will proceed accordingly with regards to accepting or declining the student for open enrollment.

If the Kadoka Area School District cannot meet the provisions of the law for the child in need of special education or special education and related services, the Kadoka Area School District may deny that child's application for open enrollment. If two or more children from a family residing in the same household, one of which needs special education and/or related services and both of which are eligible for kindergarten through 12th grade, may open enroll only if pursuant to SDCL, the Kadoka Area School District can provide an appropriate instructional program and facilities, including transportation, for the child in need of special education or special education and related services.

D. MISCELLANEOUS PROVISIONS

1. The board will assign all students among the schools within the district, pursuant to SDCL.
2. The district will make relevant information about the district, schools, programs, policies and procedures available to all interested people.
3. Appeals from board action under the 1997 Open Enrollment Act can be made under SDCL and the court will conduct a *de novo* review (make a new decision).

The time for appeal under SDCL is within ninety days from the date of the decision.

Complaints – Policy and Procedure

INFORMAL PROCEDURES – when no action is being requested:

If a patron wishes to express a concern to any school employee or school board member they may express those concerns freely to whomever they want. Parents and patrons are encouraged to express their concerns to the person closest to the origin as possible. The informal complaint policy may not be used to bring complaints to the Board of Education in open or executive session when the issue is about students or personnel.

FORMAL PROCEDURES – when action or change is being requested:

The formal process must be followed. The purpose of this policy is to provide the school district a fair chance to improve its practices and policies and strengthen personnel through face to face negotiations with students, employees, and the public. All complaints must give the staff member closest to the problem a fair chance to resolve the issue before the complaint is taken to the next level. We believe that circumventing the staff member closest to the problem weakens and discredits our school by obscuring: (1) the nature of complaints, (2) pertinent details, and (3) potential improvements in our rules and processes.

This policy explains in detail how to voice a complaint in a way that protects everyone’s rights and ensures the potential for improvement. It does not guarantee that the school or Board of Education will change the rules or their application. Formal complaints must be filed within 5 working days after the occurrence the event leading to the complaint. Steps a. through c must be completed in 10 working days. The Board will hear the complaint at the first Board meeting following the 10 day process if needed.

- A. **A complaint about a teacher, coaches, supervisors, or their procedures.** The complainant must make a good faith effort to resolve the complaint with the staff member. The complainant must:

1. Identify the problem
2. Provide pertinent information
3. Suggest a solution in writing

If a resolution cannot be reached, the complaint will be referred to the principal. A report of good faith effort to find a resolution should accompany the referral by the staff member to the principal.

- B. **Complaints about a principal, school policy, or the application of policy.** The principal will try to resolve the complaint with an explanation of their application of policy referencing the student handbook, district policy, or state law as needed. The principal may not change policy, but may negotiate application changes with the patron as long as changes in application do not change the policy. If the complainant is not satisfied, the principal will refer the complaint to the superintendent in writing.

- C. **Complaints unresolved by the principal are referred to the Superintendent.** All complaints must be accompanied by a written record from the principal. The record must include: clear identification of:
1. The problem or complaint,
 2. All critical information and references to policy
 3. Identify the positions of the principal and the complainant.

The superintendent will conduct a meeting with the principal and the complainant ... either individually or together before rendering a judgment. Superintendents cannot change policy but can suggest or order changes in the application of policy as long as the policy remains unchanged. Unresolved complaints may go to the BOE for their review.

- D. **The BOE deals with all complaints unresolved with the superintendent:** All complaints must be accompanied by a written record from the superintendent of attempts to resolve the conflict with all appropriate individuals as outlined in this policy.

The report must include clear identification of:

1. The problem or complaint
2. All critical information and references to policy
3. The positions of the school and the complainant.

The superintendent will arrange a meeting with the parties and the BOE before a judgment is rendered.

The BOE's purpose will be to:

1. Ensure that responsibility for changes in rules or application of rules resides with the most appropriate individuals
2. Offer one BOE member to accompany patrons to see the principal or superintendent as needed and consult with the principal and superintendent to ensure that all possible efforts have been made prior to hearing a complaint at the BOE level
3. Ensure that the school has met the legal responsibility of functional and procedural due process
4. Provide judgments on all complaints unresolved by the superintendent.

Policy Development

POLICY ADOPTION:

Adoption of new policies or changing existing policies is solely the responsibility of the Board. Policies will be adopted and/or amended only by the affirmative vote of a majority of the members of the Board when such action has been scheduled on the agenda or a regular or special meeting.

To permit time for study of all new policies or amendments to policies and to provide an opportunity for others to react, proposed policies or amendments will be presented as an agenda item to the Board in the following sequence:

1. Discussion item first reading of proposed policy or policies; response from superintendent; report from any Board or advisory committee assigned responsibility in the area; Board discussion and directions for any redrafting.

Amendments to the policy at the action stage will not require repetition of the sequence, unless the Board so directs.

In emergency situations, the Board may dispense with the above sequence. Except in an emergency situation, policies should not be adopted at the meeting at which they are initially introduced.

Criminal Background Check – Employees

It is the policy of the board to only employ individuals who do not have a “disqualifying record”. Each offer of employment is subject to the provisions of SDCL, et seq., relating to criminal background investigations. This policy shall apply to all individuals employed for the 2000/2001 school year and thereafter, who were not employed by the district during the preceding school year. An employee is any person the district lists on its payroll and makes payroll deductions pursuant to state or federal law.

Each person considered a final applicant for employment shall take fingerprint cards to a law enforcement agency and present these materials and a photo ID to complete the fingerprinting process. The applicant will return fingerprinting materials to the school district business office for submission to the DCI.

The person granted employment subject to this policy is employed on a temporary basis until a report is returned that is not a “disqualifying record”. Any “disqualifying record” will result in immediate termination of employment without further notice or hearing. A “disqualifying record” means any conviction of a crime of violence as defined in SDCL, a sex offense as defined in SDCL, or trafficking in narcotics. Conviction of any crime of moral turpitude as defined by SDCL may constitute a disqualifying record as determined by the board on a case-by-case basis.

Any criminal conviction not disclosed by an applicant may be treated as a disqualifying record.

Any criminal conviction may be considered in making a hiring decision.

Background checks will be maintained in the office of the Superintendent.

This policy shall not apply to persons performing services for the district under the authority of the SDHSAA.

This policy applies to all other employment agreements, whether written or oral.

Grant Submission Policy

The Kadoka Area School District recognizes that from time to time grants from government or private sources become available to help support specific programs and operations of the school district.

Therefore, prior to submitting application for any new grant, the grant writer shall complete the attached grant approval form. The form shall be submitted to the business office and approved by the board of education. Board approval of any grant through this process verifies the board's commitment to accept and implement the terms of the grant.

Sportsmanship at Public School Events

Competitive events will always include controversy regarding calls made by referees and, judgments made by coaches. Disputes also arise when teachers and administrators make decisions. The real issue is not if these calls meet everyone's approval, but what we teach our students to do about calls that are not made in their favor. Do we teach students to blame the outcomes of an event on someone else, or do we teach students how to overcome adversity? One way we act alone to teach the blame game and defeatism, the other way we team up with the school staff to teach our students to work harder and smarter.

Below are ETHICS we expect those in attendance to follow:

All attendees are expected to:

1. Provide positive support to the teams and players for outstanding performances.
2. Never be abusive with language or actions toward any player, official, team, or fellow spectator.
3. Never interrupt the play or endanger others by throwing any object out on to the floor on in the stands.
4. Realize that the officials assigned are trained neutral people trying to do the best job possible of enforcing the rules of the game and assuring that no team gains an unfair advantage.
5. Realize that the main purpose of the contest is the play of the game and the role of the spectator is one of support.

Legalities:

1. It is illegal to bring alcoholic beverages to any public school event.
2. It is illegal to threaten or verbally assault any one at public school events.
3. It is illegal to bring firearms or any other weapons on any school property at any time except by law enforcement officers.
4. Schools have a right and an obligation to provide a safe place for all to participate in school events.

Therefore: The Kadoka Area School Board authorizes the school administration to ask the local law enforcement officer to provide law enforcement at school events and to hire additional off duty law enforcement to assist as needed. Additional law enforcement officers will be compensated.

Anyone who is removed from a school event for any violations of law or poor sportsmanship will be referred to the BOE for possible exclusion from future events for a period of time to be determined by the BOE. The BOE will require the Superintendent, Principal, and or Activities Director to inform the patron regarding their exclusion from school events. Law enforcement will also be provided a list of individuals who are excluded.

Volunteerism

Parent and community support and volunteerism at public events is welcomed and is considered a vital part of all public school events. The Kadoka Area School District recognizes and appreciates this vital contribution by the community and parents and believes that:

- Students need to feel the support by their parents and community for their effort in school events.
- Students need to learn how to model positive support for future students when they become parents and members of the community.

The Kadoka Area School Board recognizes the vital role volunteers play in the organizations and classrooms of our school. Individuals wishing to volunteer at the school district will be required to gain approval from the administrative offices (principal and superintendent) before volunteering in a classroom or at an activity/event. Volunteers are expected to adhere to school district policies while working with students and staff.

Wellness/Nutrition Regulations

Nutrition Education Component:

At each level nutrition education will be offered as part of a sequential, comprehensive, standards-based program designed to provide students with the knowledge and skills necessary to promote their health. Nutrition education will be incorporated into the school day as often as possible. The primary goal of nutrition education is to influence students' eating behaviors.

Nutrition Education:

- ▶ Teaches consistent scientifically-based nutrition messages throughout the school, classroom, cafeteria, home, community and media;
- ▶ Is part of health education classes and/or stand alone courses;
- ▶ Is included in the scope and sequence of the curriculum in core subjects such as math, science, language arts, social sciences, and elective subjects;
- ▶ Includes the school cafeteria which serves as a "learning laboratory" to allow students to apply critical thinking skills taught in the classroom;
- ▶ Uses the SD Health Education Standards and addresses nutrition concepts progressively in grades K through 12;
- ▶ Offers information to families that encourages them to teach their children about health and nutrition;
- ▶ Will be taught by staff who are adequately prepared and who participate in professional development activities in order to deliver an effective program;
- ▶ Will include a school nutrition contact person to provide nutrition education information and resources that involve parents, students, and the community.

Nutrition Standards Component:

Students' life-long eating habits are greatly influenced by the types of foods and beverages available to them. Foods of good nutritional content including fruits, vegetables, low-fat dairy foods, and low-fat grain products will be available wherever and whenever food is sold or otherwise offered at school during the normal school day.

- ▶ The school food service program will operate in accordance with USDA regulations and state policies for the purpose of offering nutritious food choices;
- ▶ Healthy food and beverage choices should be encouraged and promoted in various school settings such as "a la carte" programs, snacks, vending machines, parties and celebrations.
- ▶ The needs of students with special dietary concerns should be considered;
- ▶ Classroom rewards should be nonfood items whenever possible.

Physical Activity Component:

The primary goal for the school's physical activity components to provide opportunities for every student to develop the knowledge and skills for specific physical activities, to maintain physical fitness regularly, to participate in physical activity, and to understand the short and long-term benefits of a physically active and healthful lifestyle.

- ▶ The daily physical education classes and its curriculum should demonstrate progression and be sequential. The curriculum should be consistent with the South Dakota and/or National Physical Education standards for Pre-K through 12th grade. Efforts should be made to maximize the amount of time per week students spend in physical education;
- ▶ Opportunities for physical activity are regularly incorporated into other subject areas (e.g. math, language arts, science, and social studies.);
- ▶ All elementary school students will have a morning, noon and afternoon recess of at least 15 minutes, preferably outdoors, during which students are encouraged to engage in moderate to vigorous physical activity. When feasible, recess will occur prior to lunch to ensure appropriate healthful food intake. Extended periods of inactivity for two hours or more are discouraged;
- ▶ Schools will offer activities that meet the needs, interests, and abilities of all students. All elementary, middle, and high school will promote extracurricular physical activity programs, such as intramural programs. It is recommended that school personnel will not use physical activity (e.g., running laps, pushups) or withhold opportunities for physical activity (e.g., recess, physical education) as punishment. Nor will students be denied physical activity for purposes of make-up work, testing, etc.

Other School-Based Activities Component

School will create an environment that provides consistent wellness messages which are conducive to healthy eating and physical activity, and one that contributes to forming healthy life-long habits.

- ▶ The school district will assess and, if necessary, made needed improvements to make is safer and easier for students to walk and bike to school. When appropriate, the district will work together with local entities in those efforts;
- ▶ School spaces and families will be available to students, staff, and community members before, during, and after the school day; on weekends; and during school vacations;
- ▶ The schools' dining environments will be clean and safe with enough space and serving areas to provide for an enjoyable meal with minimal wait time;
- ▶ Schools will ensure an adequate time for students to enjoy eating healthy foods with their friends;
- ▶ When selecting fund-raising projects, nonfood items and healthy food items should be considered;
- ▶ The school district will provide opportunities for on-going development for foodservice professionals, educators, administrators, and other staff.

School Day Make Up Policy

Certified Personnel

1. A school exists for the welfare of boys and girls. Supervision and evaluation of certified staff members shall be oriented toward improving instruction. Employment in the District can only be justified by such evaluation. All certified staff members shall be expected to conduct any self-evaluation or job target evaluation as deemed necessary.
2. Minimum teacher evaluation shall be scheduled by the Principal as follows:
 - a. All teachers new to the school system shall be evaluated a minimum of once a semester during the first three years of employment.
 - b. All other teachers shall be evaluated as deemed necessary, but at least once every year. (annually)
3. The "GUIDELINES FOR EVALUATION" shall provide a basis for common understanding of the evaluation process.
4. It is assumed that evaluation will be made in a variety of classroom situations, i.e., not always in the same subject matter or in the same size of group. Sufficient time should be allocated to an evaluation relative to the activity being observed.
5. Following the evaluation, the Principal shall prepare the written record of the evaluation and shall have a conference with the teacher regarding that evaluation. The teacher shall have an opportunity during that conference to write any comments of reaction to the evaluation received.
6. When a teacher receives an evaluation stating "recommended with qualification for reemployment", the teacher must be apprised of that in the conference with the Principal. The teacher is to be advised in writing and counseled orally relative to areas in which improvement is necessary.

Temporary Disengagement

The Board recognizes the inadequacies of “crisis action” and the importance of expert legal counsel in the area of dismissal for any employee. In the event of a “crisis” situation, the employee will be temporarily disengaged from their responsibilities and requested to await further notice from the administrative office. This action only simplifies the situation so as to maintain a proper environment for learning and in no way imposes contributory involvement to the employee. He/she may be reinstated to their responsibilities when advisable, or may be notified of suspension when investigation so indicates.

Suspension

Where contributory involvement is ascertainable, the employee should be suspended pending an executive session hearing before the Board and a decision regarding further employment. The employee shall have full opportunity for defense against charges and to face any person who has made allegations. If any counsel is to be present, both the employee and the Board should be represented for advice concerning legal rights and possible legal outcome. In the event of civil or criminal litigation, the welfare of the boys and girls shall be the only criteria on which continued employment is based.

Dismissal

Immediate dismissal shall be based on the provisions of SDCL. The Board shall take this step only on advice of legal counsel or on the basis of affirmative evidence supporting such action by the Board.

In all events, the welfare of the students will be the major contributing criteria on which board actions are based.

All employees are expected to adhere to SDCL, federal laws and the negotiated agreement.

Corporal Punishment and Physical Restraint

The use of corporal punishment, defined as any act of physical force upon a student for the purpose of punishing that student, is not acceptable in this district and will not be tolerated as a disciplinary measure. The term shall not apply, however, to the use of physical force that is reasonable and necessary for supervisory control over students. This would include, but is not limited to, the following situations:

1. For the purpose of self-defense.
2. To protect other persons from physical injury.
3. To protect property of the school or of others.
4. To remove a student if the student has refused to comply with requests to refrain from disruptive behaviors.

In the event that physical force is used, the following reporting procedure will be followed:

1. The individual who has used physical force must file a written report with the principal if it was an isolated incident. Teachers and staff members who must use physical restraint with a student several times during the course of the school day will keep a record of such occurrences as they take place. The superintendent will be notified and kept informed of all such incidents. The parents will be notified in each isolated incident whereas those parents/guardians of a child that must be restrained several times during the course of a school day will be notified and met with so as to better inform them as to the reason and type of restraint being used. This is to ensure that they fully understand the reasoning for such actions by the teachers and staff.
2. The report shall relate all relevant details of the incident(s), including date, time and place, what action was taken, why the action was taken and what measures, if any, will be taken to prevent the need for such actions in the future.
3. All reports pertaining to the above will be kept on file and made available to the parent/guardian upon request.
4. The parent will be given an opportunity to confer with the student, the teacher/staff member and the administrators involved in the incident to discuss the situation. The conference will take place at an agreed upon time.

The superintendent will keep the school board apprised of all incidents of the use of physical force.

Library Materials Selection

The aim of the Kadoka School library is service to all students in the Kadoka Elementary and High School. This includes individuals and groups of varied ages, education levels, philosophies, economic levels, ethnic origin and human condition. Fulfilling the educational, informational and recreational needs of these students is the library's broad purpose. All print and non-print materials are selected for this library in accordance with these basic objectives.

The following paragraph from the national Library Bill of Rights states that:

"As a responsibility of library service, books and other library materials should be chosen for values of interest, information and enlightenment... In no case should library materials be excluded because of the race or nationality or social, political or religious views of the authors."

The Library Bill of Rights further states that:

"Libraries should provide books and other materials presenting all points of view concerning the problems and issues of our times..."

Responsibility for selection of books and library materials should be vested in the librarian. He/She may delegate to such members of the staff as are qualified by reason of training, the authority to interpret and guide the application of the policy in making day-to-day selections. A library committee consisting of the librarian, principal, two teachers and three parents will be appointed by the superintendent and meet as needed, such meetings to be convened by the librarian.

Certain factors influence the selection of library materials:

1. The author's reputation and significance as a writer.
2. The importance of the subject matter to the collection.
3. Availability of material in the system, in other libraries, or in print.
4. Timeliness or permanence of the book.
5. Authoritativeness.
6. Inclusion in standard bibliographies or indexes.
7. Price.
8. Format, including possibility of rebinding, as well as type and legibility.
9. Books which advocate as major and acceptable themes, excessive violence, profanity, torture and pornography present unusual problems and the librarian should exercise caution about including such works in a school collection.

Books for the library collection should be selected to support the school curriculum, reflect the school philosophy and the district policy. Consideration of the ages and developmental levels of students should figure largely. While community values should not dictate selection practice, they should serve as one of several guidelines used in the selection process. Consideration of these values means being sensitive to subjects that may be of general concern to the community. When selecting possibly controversial materials, it is important to know how they will be perceived by the community and to have defensible reasons for the selection. This concept draws a fine line that should not extend into censorship. It is one area where public and school libraries diverge significantly in policy.

In selecting materials, the librarian and/or library committee will use recommendations from staff and parents, authoritative book reviews and personal reading to sift through the millions of titles available.

Library Materials Complaints

The Board reserves to itself the final responsibility for all library materials used in the district schools. The Board recognizes that without a free and vigorous exchange of ideas, learning and teaching cannot take place effectively. However, the Board also recognizes that district residents have a right to express concern about the content of materials available to students.

When patrons have concerns about particular materials, these concerns should be stated IN WRITING and go through the proper chain of command. The objections will then be carefully considered and accorded the courtesy of a prompt reply by school personnel. All such replies will be based on the philosophy and instructional goals of the district and upon the criteria for selection of instructional materials.

Complaints against library materials will be considered a most serious matter and will be processed in a thoughtful and deliberate manner. Therefore, the following procedures are to be followed, step by step. Complaints that reach step 3 will be reported to the Board.

1. The material in question should first be discussed with the teacher or librarian, who will report the results of this meeting to the principal. If satisfaction is not reached, the complainant may continue with step 2.
2. The principal will meet to discuss the material with the complainant and the teacher or librarian. The results of the meeting will be reported to the superintendent. If satisfaction is not gained, the complainant will be requested to complete the form, "Request for Reconsideration of Instructional Materials," before proceedings to step 3.
3. The Board of Education will appoint a review committee composed of the following members:
 - ❖ The building principal
 - ❖ The building librarian
 - ❖ Two building teachers
 - ❖ Three adult district patronsThe committee members will be asked to read or view the material and respond to the complainants' answers to the questions on the form, "Request for Reconsideration of Instructional Materials." The recommendation of the committee will be sent to the complainant by the superintendent. If the complainant is not satisfied, he/she may continue with step 4.
4. The superintendent will meet with the complainant to resolve the problem. If an impasse has developed the matter is to be directed to the Board in step 5.
5. The complainant will appear before the Board as the final step in the request for reconsideration of library materials.

Chapter 10 ALL EMPLOYEES

Disaster Plan

The Kadoka Area School Board is very concerned with the welfare of the students in the Kadoka Area School District #35-2.

The first concern is fire safety training and fire drills for all of the students. It is imperative the students are familiar with the fire routes posted in each room. Instructors are to inform each class as to which route they are to use for fire drills. Instruction in fire safety, which should include the use of fire extinguishers, should be offered periodically.

The perils of nature such as tornadoes, snowstorms and extremely frigid weather all pose life threatening situations. The practice of conducting tornado drills will continue on an annual basis.

It is our intention to cancel school when weather conditions are threatening and to use the telephone trees established in each school to notify parents of early dismissal. Early dismissal will take place when the weather conditions deteriorate after school is in session.

PLAN OF ACTION FOR USE IN BOMB THREAT IN SCHOOL

1. If the superintendent receives a call informing them that a bomb has been placed in any school building, they will immediately call local authorities and building principal.
2. If the principal receives a call, they will immediately call the superintendent who will call local authorities.
3. If a teacher receives information of a bomb threat, they will immediately notify the building principal, who will then follow procedure.
4. The principal will use the fire alarm for evacuation of the building as in a fire drill.
5. The teachers and students will stay in the assembly area until authorized to return to the building or dismissal.
6. During bad weather the gym shall be searched quickly so students can assemble there.

During periods when a bomb threat is quite likely, the following actions are suggested:

1. Rooms should be locked at all times when not in use (a good procedure at all times).
2. Teachers should briefly check room on arrival in the morning or upon return to the room during the day and report to the principal any unusual circumstances.
3. The teacher should stay in the room until all students leave, then lock the door when leaving.
4. The custodian should lock the door when leaving the room after cleaning.
5. Have priority search areas:
 - a. Area where warning said it might be placed
 - b. Classrooms
 - c. Lockers
 - d. Gymnasium, auditorium, cafeteria etc.

6. If the public is to be informed, seek in advance the cooperation of news media with the understanding that news media will not broadcast or publish, except possibly editorially without permission of school authorities.

Sexual Harassment

1. POLICY

It is the policy of the Kadoka School District that sexual harassment is illegal, unacceptable and shall not be tolerated; that no employee, student or visitor of the district may sexually harass another. Any person will be subject to disciplinary action for violation of this policy.

2. DEFINITION

Unwelcome sexual advances, requests for sexual favors and other verbal or physical conduct of a sexual nature constitute sexual harassment when:

- a. Submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment or education;
- b. Submission to or rejection of such conduct by an individual is used as the basis for academic or employment decisions affecting such individual; or
- c. Such conduct has the purpose or effect of unreasonably interfering with an individual's academic or work performance or creating an intimidating, hostile or offensive employment or educational environment.

3. REGULATIONS

Sexual harassment is illegal under both South Dakota (Executive Order 81-08) and Federal (Title VII, Title IX) law. In some cases, it may be liable to prosecution under the criminal sexual conduct law. All reported incidents of sexual harassment will be promptly and thoroughly investigated and all substantiated acts of sexual harassment will result in immediate and appropriate corrective action. Confidentiality consistent with due process will be maintained.

4. ACCOUNTABILITY

The faculty, staff, administrators and students of the Kadoka School District are responsible for maintaining a working and learning environment free from sexual harassment. It is the obligation of each employee and student to become fully informed of the provisions of this policy and assure individual compliance. To assure dissemination of this policy, copies will be posted at appropriate locations.

5. COMPLAINTS

Any employee who feels that he or she has been subject, in the work place, to sexual harassment, should report the incident immediately to his or her immediate supervisor and/or to the superintendent. If the immediate supervisor is involved in the activity, the violation should be reported to that supervisor's immediate supervisor. Students may report such incidents to the principal or superintendent of the school. Resolution of complaints or problems may be pursued informally or formally at the option of the person who feels he or she has been subject to sexual harassment.

Employee Communicable Diseases

The board recognizes its responsibility to provide a clean and healthy environment for students and school employees.

The determination of whether an infected employee be excluded from work activities shall be made on a case-by-case basis, under the direction of the principal, building administrator or designee.

In situations where the decision requires additional knowledge and expertise, the principal will refer the case to an advisory committee for assistance in determining the proper course of action.

The advisory committee may be composed of:

1. A representative from the State Health Department
2. The employee's physician
3. The employee and/or designee
4. The school health service's provider
5. The superintendent or designee, and
6. Other appropriate school personnel

In making the determination, the advisory committee shall consider:

1. The physical condition of the school employee
2. The expected type(s) of interaction with others in the school setting
3. The impact on both the infected school employee and other in that setting
4. The South Dakota Department of Health guidelines and policies
5. The status of certification of the employee as is promulgated in SDCL
6. Information regarding the infected employee which is deemed part of their personnel records, therefore is classified as "Confidential" as required by SDCL.

The advisory committee may officially request assistance from the State Department of Health.

If employment of an infected employee is to be interrupted or discontinued, the employee will be entitled to use available medical leave and receive available benefits.

Public information will not be revealed about the employee who may be infected. If the employee is permitted to remain in the school setting, the following procedure will be followed by the principal: Information will be provided, as appropriate to school employees who have regular contact with the employee, as to the employee's medical condition and other factors needed for consideration in carrying out job responsibilities.

Health guidelines for work attendance are established and interpreted within the context of the case. The guidelines are not inclusive but are available to be used as a resource. School personnel will refer to school health professionals for specific judgments in interpreting the guidelines.

Instructions in appropriate handling of blood and body fluids will be provided. Hand washing after contamination, food preparation and health/hygiene care performed in different sink and work areas, maintenance cleaning and other personal hygiene measures are part of creating a healthy environment.

Specific health concerns may require the advisory committee to make a determination on school attendance or participation in school activities.

Drug Free Workplace

USE OF ALCOHOL, DRUGS AND CONTROLLED SUBSTANCES BY EMPLOYEES

Student and employee safety is a paramount concern to the school board. Employees under the influence of alcohol, drugs or controlled substances are a serious risk to themselves, to students and to other employees. Therefore, the school board will not tolerate the unlawful manufacture, use, possession, sale, distribution or being under the influence of drugs or controlled substances. Nor will the board tolerate the unlawful use of, or being under the influence of, alcohol by an on-duty employee. Any employee who violates this policy will be subject to disciplinary action, which may include dismissal. Each employee of the district is hereby notified that, as a condition of employment, the employee must abide by the terms of this policy and will report to the superintendent any criminal drug statute convictions for a violation occurring in or on the premises of this school, or while engaged in regular employment. Such notification must be made by the employee to the superintendent no later than five days after conviction. The superintendent will provide notice of such violation to the Impact Aid Program, US Dept. of Education or other appropriate government agency within ten days after the superintendent receives such notification.

Within thirty days after receipt of information concerning a violation of this policy, the district will take appropriate discipline action, which may include termination of employment or requiring the employee to participate in drug abuse assistance or rehabilitation programs.

Periodically all employees will attend a district drug-free awareness program at which employees will be informed about the dangers of drug abuse in the workplace; this policy of maintaining a drug free workplace; available drug counseling; rehabilitation and employee assistance programs; and the penalties that may be imposed upon employees for drug abuse violations occurring in the workplace.

The school board recognizes that employees who have a drug abuse problem should be encouraged to seek professional assistance. An employee who requests assistance shall be referred to a treatment facility or agency in the community if such facility or agency is available.

When a staff member has consumed alcoholic beverages or illegal drugs on school property and/or before a school activity, the staff member will not be allowed on school property or to participate in school activities. Staff members who violate this regulation will be subject to the same penalties as for possession or consumption on school property.

The school board hereby commits itself to a continuing good faith effort to maintain a drug free workplace.

A copy of this policy shall be given to all present and future employees.

Family and Medical Leave – Professional Staff

An eligible employee is entitled to up to a combined total (paid and unpaid) of twelve (12) weeks of FMLA Leave per year for:

1. The birth and first year care of a child.
2. The adoption or foster placement of a child (not to exceed 12 months after adoption or placement).
3. The illness of an employee's spouse, parent or child.
4. The employee's own illness (serious health condition).

The employee must first use and count all available accrued paid leave-before using the unpaid leave. During the period of FMLA Leave, the employee is entitled to the continuation of all fringe benefits including paid leave. The district will continue to pay its portion of the health insurance, and it will be the employee's responsibility to continue to pay for their portion. The payment shall be due to the district on the first day of each month and shall be paid one month in advance. Upon return to work, the employee will be entitled to their same position or an equivalent position with equivalent pay, except that return to work during the last two (2) or three (3) weeks of a semester is subject to certain restrictions. See Special Rules below.

In cases where both spouses are employed by the district, the combined amounts (both employees) of FMLA Leave for birth, adoption or foster placement, or family illness is limited to twelve (12) weeks. Personal illness is not limited to this combined total.

The district, at the request of the employee, may agree that the employee may take leave intermittently or on a reduced hours basis in connection with the birth, adoption or foster placement of a child. This is subject to the recommendations of the administrator or supervisor and is at the request of the employee.

When FMLA Leave is in connection with birth, adoption or foster placement, and is foreseeable, the employee must provide at least thirty (30) days notice of the date when FMLA Leave is to begin. When FMLA Leave is in respect to family or employee illness which is foreseeable, the employee must make a reasonable effort to schedule treatment, including intermittent and reduced hour leave, so as to not unduly disrupt the operations of the district.

In case of employee illness, in addition to current sick leave policy requirements, the district may require the employee to provide certification by their health care provider that the employee is able to return to work and is able to meet the essential functions of the job.

If an employee fails to return to work after the leave period has expired, unless the absence is due to continued family or personal illness or other circumstances beyond the employee's control, the district will require the employee to reimburse the district's share of the health insurance premiums paid while the employee was on FMLA Leave.

Special Rules:

1. Rules Applicable to Instructors in Periods Near the conclusion of an Academic Term (School Semester). The following rules apply to any employee who takes FMLA Leave under this policy and who is employed principally in an instructional capacity:
 - a. If FMLA Leave begins more than five (5) weeks before the end of an academic term, the principal may require the employee to continue taking leave until the end of that academic term if:
 - 1) The leave is of at least three (3) weeks duration; and
 - 2) The return to work would occur during the three-week period before the end of the academic term.
 - b. If FMLA Leave begins within the five (5) weeks before the end of an academic term, the principal may require the employee to continue taking leave until the end of that term if:
 - 1) The leave is of more than two (2) weeks duration; and
 - 2) The return to work would occur during the two (2) week period before the end of the academic term.
 - c. If FMLA Leave begins within three (3) weeks before the end of the academic term, the principal may require the employee to continue taking leave until the end of that term, if the leave is for more than five (5) working days.

Students may be disabled under this policy even though they do not require services pursuant to the Individuals with Disabilities Education Act (IDEA).

Due process rights of students with disabilities and their parents under Section 504 will be enforced. Due process rights of personnel under ADA will also be enforced.

If there are questions, please feel free to contact the superintendent, 504/ADA Coordinator for the District at 605-837-2175.

If that requires personal contact between student and school employees, only trained volunteer employees shall be utilized.

Public information will not be revealed about the student who may be infected. If the

student is permitted to remain in the school setting, the following procedure will be followed by the Superintendent/Principal:

Information will be provided, as appropriate, to school employees who have regular contact with the student, as to the student's medical condition and other factors needed for consideration in carrying out job responsibilities.

Health guidelines for school attendance are established and interpreted within the context of the case. The guidelines are not inclusive but are available to be used as a resource. School personnel will refer to school health professionals for specific judgments in interpreting the guidelines.

Instruction in appropriate handling of blood and body fluids will be provided. Hand washing after contamination, food preparation and health/hygiene care performed in different sink and work areas, maintenance cleaning and other personal hygiene measures are part of creating a healthy environment.

3. Treatment: Principals will establish procedures for students prior to treatment and provide parents with appropriate information to treat nits and lice.

- a. The principal may use their judgment in isolating students from other students during a school day or calling to have a parent take their student home before the official end of the school day.
- b. Treatment of diagnosed nits and lice must be done as soon as possible after school and before returning to school the next day.
- c. The principal will provide parents or guardians with instructions on how to effectively and safely treat nits and lice.

4. Re-Admittance to School

- a. The principal will take the responsibility for validating the absence of nits or lice (through the school nurse or others) the next morning before a student is readmitted.
- b. Students are to be given excused absences up to two days for the needed treatment. Homework will be provided if necessary.

5. Re-Checks:

Student Grievance Policy

Student Grievance

A grievance is defined as a complaint lodged by a student with a member of the staff or administration alleging one or more of the following unfair practices:

- ▶ That a school rule is unfair,
- ▶ That a school rule or regulation discriminates between students based on sex, age, race, color, religion, national origin or handicap,
- ▶ That an unfair procedure has been used in arriving at a punishment.

Grievances are processed through 3 steps:

1. To the principal
2. To the superintendent
3. Complaints that remain unresolved following any action of the superintendent may be referred in writing to the school board for review. The board's decision will be final unless an appeal is requested.

On all three levels an informal conference is to be held within five days of the date of filing of the complaint so that no student's complaint shall consume more than 15 days time in all. The burden of proof is upon the student to show that a rule is unfair, is discriminatory or that an unfair procedure (lack of due process) has been perpetrated. The final resolution of the grievance is to be in writing at the principal's level and designed to provide the student with a basis for resolution of the program as originally stated in the complaint.

Student Grievance Procedure:

If a student has a grievance, he/she should present it in writing to:

LEVEL 1: The principal shall schedule an informal discussion of said grievance with student. It is expected that many grievances may be resolved at this level. The principal must hold a conference within five days time of the date of filing.

LEVEL 2: If a student is not satisfied with the resolution made at level 1, he/she may appeal to the superintendent for an informal conference and discussion of said grievance.

LEVEL 3: Complaints that remain unresolved following any action of the superintendent may be referred in writing to the school board for review. The board's decision will be final unless an appeal is requested.

Student Grievance Form

A grievance is defined as a complaint in writing presented by a student to the school staff/authorities alleging one or more of the following:

- A. That a rule is unfair; and/or
- B. That a rule in practice discriminates against or between students based on sex, age, race, color, religion, national origin or handicap; and/or
- C. That school personnel used an unfair procedure in assessing a form of punishment against a student.

Promotion and Retention of Students

The administration and teaching staff of Kadoka School District must strive to create plans of instruction and instructional organization that will permit students to progress through school according to their needs and abilities.

Students will normally progress annually from grade to grade. However, exceptions to this general policy may be made when it becomes evident a student should proceed more slowly.

Retention will not be used until other possibilities have been exhausted, including special help, remedial work and summer school opportunity.

In all cases of retention, parents must be informed of such possibility well in advance (usually by the 1st of March) and a conference with them sought. In all instances, the advice and help of the guidance counselor and other special school personnel will be used by teachers.

Although teachers may recommend retention, all retentions (as well as promotions) will be assigned by the school principal. Teachers, in recommending retentions, and principal assigning them, will give the reasons why they feel the student should repeat.

The principal will take particular care in assigning more than one retention during a child's elementary school life. The superintendent must approve a second retention assigned any student.

Dangerous Weapons in the School

Schools should be an example of what is taught regarding the observance and respect for law. Schools also must be highly conscious of the health and welfare of students, staff and the public.

State and federal laws as well as board policy forbids the bringing of dangerous or illegal weapons to school or school sponsored activities. If any weapon is taken from a pupil, the pupil's parents shall be notified. Confiscation of weapons may be reported to the police. Appropriate disciplinary and/or legal action shall be pursued by the building principal.

A dangerous weapon is defined as any firearm or air gun, knife or device, instrument, material or substance, whether animate or inanimate, which is calculated or designed to inflict death or serious bodily harm. Laser pointers are considered dangerous when used inappropriately and therefore students are prohibited from bringing them on any school property or to any school activity.

No dangerous weapons are permitted on any school premises, school vehicle or any vehicle used for school purposes, or in any school building or other building or premises used for school functions. An exception would be weapons under the control of law enforcement personnel, starting guns while in use at athletic events, firearms or air guns at fire range, gun shows and authorized supervised school training sessions for the use of firearms.

Any student bringing a firearm to school calculated or designed to inflict death or serious bodily harm, shall be expelled for a period of not less than twelve months and will be referred to law enforcement authorities. The superintendent shall have the authority to recommend to the school board that this expulsion requirement be modified on a case-by-case basis. This policy shall be implemented in a manner consistent with IDEA and Section 504. For the purpose of this portion of this policy, the term "firearm" includes any weapon which is designed to expel a projectile by action of an explosive, the frame or receiver of any such weapon, a muffler or silencer for a weapon, or any explosive, including any poison gas.

Transfers from Non-Accredited Schools

The Kadoka Area School District will accept credits of students transferring from non-accredited schools subject to the following conditions or guidelines:

1. A standardized achievement test shall be administered and evaluated by the building principal and staff of the school to which the student is seeking admission.
2. The student will be placed in English and mathematics courses at the level of achievement demonstrated by the tests, as evaluated by the principal and appropriate staff. The student's placement may not be in a grade level higher than warranted by the student's chronological age, assuming entry into the first grade at age six and annual grade advancement thereafter. After initial placement the child may be advanced according to the student's demonstrated performance.
3. In all other subjects, that student shall be interviewed and shall take a departmental examination in each course for which the granting of credit is being considered. After the examination and interview with the student, the department chairperson and staff will recommend to the building principal whether or not credit be granted for the course.
4. No credit will be granted for any science course which is normally a laboratory course, unless clear documentation is provided demonstrating the student has satisfactorily participated in laboratory experiences which parallel or are consistent with those required in this district's science courses.
5. Any parent or guardian who is dissatisfied with the secondary placement of a student may appeal it to the superintendent of schools. Final appeal after the appeal at district level may be made to the Secretary of Education and Cultural Affairs.

A student whose previous high school enrollment has been entirely in non-accredited schools or in alternative instruction pursuant to SDCL may receive a high school diploma from the Kadoka Area School District only if that student has met all graduation requirements of the school district as determined by the school handbook and "Transfers from Non-accredited Schools Policy" and has been enrolled as a full-time student in the Kadoka Area High School for the full senior year.

School Lunch Program

OFFER VS. SERVE

The Kadoka Area School District has adopted this policy which is designed to reduce food waste and give students a choice in the items they take. All 5 required items in a meal pattern must be offered; but students are only required to take 3 items. This applies to grades K-12

Medication Policy

Administering Medication to Students

The presence of medicines on school property and/or taking of medicine by students during school hours must be carefully monitored to prevent harmful situations to students.

Whenever possible, students are encouraged to receive medicines outside of school hours. In cases where medicine must be taken during the student's time at school, the following procedures are to be followed:

1. Diagnosis and treatment of illness are not the responsibilities of the district and shall not be practiced by school personnel.
2. All medicines must be brought to the administrative offices of the school or the personnel in charge of administering medication at outlying attendance center, and placed in the custody of the principal or their designee.
3. Prescription medicine is to be stored in a locked cabinet or storage area. Medications to be refrigerated must be stored in a locked box in the refrigerator.
4. School personnel shall not provide aspirin or any other medication to students.
5. All medications must accompany a School Health Services Request and Authorization for Medication Form. The form must be completed and signed and dated by a physician and parent.
6. The prescription medication to be administered or stored must be in a pharmacist's labeled container specifying the student's name, date of prescription, directions for use and physician's name.
7. No "over-the-counter" medications will be given without a parent's written order.
8. It is the student's responsibility to report to the personnel in charge of administering medication to take their medicine.
9. A record of all prescribed medications given to all students must be kept. These will be retained for one year and then may be destroyed.
10. Unused medication must be picked up on or before the last day of school or one (1) week after the last dose is given. Medication not picked up will be destroyed.
11. Kadoka Area School District will not be responsible for any medication self-administered by a student with or without our knowledge.

Administration of Medical Cannabis to Qualifying Students

The School District restricts the administration of medical cannabis during school hours and at school-sponsored activities unless, in accordance with a practitioner's recommendation, administration of medical cannabis cannot reasonably be accomplished outside of school hours or school-sponsored activities.

The District permits students with a valid registry identification card for medical cannabis under South Dakota law to be administered medical cannabis on school property or at a school-sponsored activity by their parent/guardian or other registered designated caregiver in accordance with this policy and South Dakota law. In order for a parent/guardian or other designated caregiver to administer medical cannabis to a qualifying student, the District will require the following to be provided initially and thereafter at the beginning of each school year and at any time when the qualifying student's administration of medical cannabis changes:

- Presentation of the student's valid State of South Dakota Department of Health approved registry identification card or nonresident card with the State of South Dakota Department of Health's confirmation of registration (a copy of which will be kept by the school in the student's educational record);
- Presentation of the State of South Dakota Department of Health approved caregiver's card showing his/her status as the registered designated caregiver for the qualifying student (a copy of which will be kept by the school in the student's educational record); and
- A written dated and signed certification by the qualifying student's recommending practitioner that also includes the dosage, frequency or time of administration, and length of time between dosages.

The parent/guardian or other registered designated caregiver is the only person who may provide, administer, or assist the student with the consumption of medical cannabis. Schools will not store, and school personnel will not administer, medical cannabis.

Administration of medical cannabis to qualifying students shall be in accordance with this policy. Administration of all prescription and nonprescription medications to students shall be in accordance with applicable law and the District's policy concerning the administration of medications to students.

Definitions

The following definitions apply for purposes of this policy:

1. "Designated location" means a location identified in writing by the school district in its sole discretion and may include a location on the grounds of the school in which the student is enrolled, upon school property in South Dakota, as that term is defined herein, or at a school-sponsored activity in South Dakota.
2. "Permissible form of medical cannabis" means non-smokable products such as oils, tinctures, edible products, or lotions that can be administered and fully ingested or absorbed in a short period of time. Patches and other forms of administration that continue to deliver medical

cannabis to a qualified student while at school may be appropriate for students who receive ongoing adult assistance or on a case-by-case basis as determined by the district when adequate protections against misuse may be made. Smoking or vaping medical cannabis is strictly prohibited and is not a permissible form of medical cannabis for students in a school setting under any circumstances.

3. “Designated caregiver” means the qualifying student’s parent, guardian or other responsible adult over twenty-one years of age who is the qualifying student’s registered designated caregiver and who has a caregiver’s card approved by the South Dakota Department of Health. In no event shall another student be recognized as a designated caregiver. A designated caregiver is the only individual permitted to possess and administer to a qualifying student. Any designated caregiver seeking access to school property or school-sponsored activity for purposes of this policy must comply with the Board’s policy and/or procedures concerning visitors to school and all other applicable policies.
4. “School property” means any school premises, vehicle, or building, or on or in any premises, vehicle, or building used or leased for the school district’s functions.
5. “Qualifying student” means a student who possesses a valid registry identification card approved by the State of South Dakota Department of Health for the use of medical cannabis.
6. “Written certification” means the completed South Dakota Department of Health form dated and signed by a physician who is licensed with authority to prescribe drugs to humans, stating that in his/her professional opinion the patient is likely to receive a therapeutic or palliative benefit from the medical use of cannabis to treat or alleviate the patient’s debilitating medical condition or symptom associated with the debilitating medical condition. The document must specify the patient’s debilitating medical condition and that it is made in the course of a bona fide practitioner-patient relationship.

Permissible administration of medical cannabis to a qualifying student

A qualifying student’s designated caregiver may administer a permissible form of medical cannabis to a qualifying student in a designated location if all of the following parameters are met:

1. The qualifying student’s parent/guardian provides the following to the school before the administration of medical cannabis is allowed on school property or at a school-sponsored activity and thereafter at the beginning of each school year and at any time when the qualifying student’s administration of medical cannabis changes:
 - a. The qualifying student’s valid registry identification card from the State of South Dakota Department of Health or nonresident card with the State of South Dakota Department of Health’s confirmation of registration authorizing the student to receive medical cannabis;
 - b. The completed and signed Medical Cannabis Administration Plan;
 - c. The designated caregiver(s) card approved by the State of South Dakota Department of Health; and

- d. Written certification dated and signed by the student's recommending practitioner that also includes the dosage, frequency or time of administration, and length of time between dosages.
2. The qualifying student's parent/guardian provides written notice to the school within ten (10) days of any of the following:
 - a. Change in a designated caregiver;
 - b. The student ceases to have a debilitating medical condition, as that term is defined in South Dakota law; or
 - c. The registry identification card is void, expired or revoked.
3. In the event that a new registry identification card is issued, the qualifying student's parent/guardian provides the new card to the school district within ten (10) days of the issuance of the card;
4. The qualifying student's parent/guardian signs the written acknowledgement in the Medical Cannabis Administration Plan assuming all responsibility for the provision, administration, maintenance, possession, storage and use of medical cannabis under state law, and releases the district from liability for any claim or injury that occurs pursuant to this policy;
5. The qualifying student's parent/guardian or designated caregiver shall be responsible for providing the permissible form of medical cannabis to be administered to the qualifying student, shall transport it in a container that meets the packaging and labeling requirements specified by the South Dakota Department of Health, and shall not at any given time possess on school property an amount of medical cannabis that exceeds the qualifying student's prescribed daily dosage;
6. The district will determine the location and the method of administration of a permissible form of medical cannabis so as not to create risk of disruption to the educational environment or exposure to other students;
7. After administering the permissible form of medical cannabis to the qualifying student, the student's designated caregiver shall remove any remaining medical cannabis from the school property or school-sponsored activity;
8. The written dated and signed plan contained in the Medical Cannabis Administration Plan is prepared and identifies the form, designated location(s), and any protocol regarding administration of a permissible form of medical cannabis to the qualifying student.

Additional parameters

School personnel, in their role as employees of the school district, will not under any circumstances:

1. Assist a qualifying student or his/her designated caregiver in obtaining, administering, or using medical cannabis;

2. Store or hold medical cannabis in any form;
3. Ensure the qualifying student is properly using the medical cannabis as instructed by his/her recommending practitioner; or
4. Serve as the qualifying student's designated caregiver of medical cannabis.

This policy conveys no right to any student or to the student's parents/guardians or other designated caregiver to demand access to any general or particular location on school property or at a school-sponsored activity to administer medical cannabis.

When a school-sponsored activity occurs at another South Dakota public school, the location identified by that school will serve as the designated location for the designated caregiver's administration of medical cannabis.

This policy shall not apply to school property or school-sponsored activities located outside of the state of South Dakota or on federal property or any other location that prohibits cannabis on its property.

Permission to administer medical cannabis to a qualifying student may be limited or revoked if the qualifying student and/or the student's parent/guardian or other designated caregiver violates this policy or demonstrates an inability to responsibly follow this policy's parameters.

No student is permitted to possess or self-administer medical cannabis. Qualifying students with a valid registry identification card who possess or self-administer cannabis may be subject to discipline just as any other student without a valid registry identification card would be. Student possession, use, distribution, sale or being under the influence of cannabis inconsistent with this policy may be considered a violation of Board policy concerning drug and alcohol involvement by students or other Board policy and may subject the student to disciplinary consequences, including suspension and/or expulsion, in accordance with applicable Board policy.

If the federal government indicates that the District's federal funds will be lost or have been lost by this policy, the Board declares that this policy shall be suspended immediately and that the administration of any form of medical cannabis to qualifying students on school property or at a school-sponsored event shall not be permitted. The district shall post notice of such policy suspension and prohibition in a conspicuous place on its website.
